## Travel Tips

FOR YOU AND YOUR PET

Many Canadians decide that the harsh winters are best spent vacationing in the warmer climates down south. Wherever you're headed, keep these travel tips in mind when bringing your pet along for the adventure!

1

Make sure your pet's vaccinations are up to date, and that you have any required health certifications for your destination.

2

Ensure your pet has proper ID and is microchipped. In the event they go missing, this will increase your chances of reuniting immensely.

3

When travelling by vehicle, safely secure your pet. There are different seatbelts, car seats, and crates available for pets of all sizes. Stop frequently for exercise and potty breaks.

4

When traveling by plane, make all necessary travel arrangements ahead of time ensuring your pet will be taken care of.

5

Relax with pet insurance. With Petsecure, coverage is valid while travelling on vacation in the continental United States of America.

All claims received in U.S. funds are adjusted to Canadian funds with no exchange.

For example: \$500 US = \$500 CDN
